## **FRSBikeTraxx 2.1.0 Crack + Free X64 2022 [New]**

What Is It? Bike riders often need to track their bikes. That's why there are many applications that let you share information about your rides, mainly if you ride using smartphones. At the same time, having such tools running simultaneously drains battery life and uses data connection on demand. If you want to keep track of your bicycle routes, but save battery, time and data in one app, FRSBikeTraxx Crack Free Download is the right choice for you. It makes all your bikes wearables and combines a GPS tracker, an app and a journal. The app can be quickly installed. It's packed in a plain and simple interface, where you can begin adding records about your cycling rounds right away. These records should include the day of the route, average and maximum speed, duration, distance, temperature, wind direction and speed, along with any notes. However, any of these fields can be omitted (for instance, if you don't know the wind speed and direction). It's possible to create as many log entries as you want, edit and remove them from the list, use a common search function to swiftly locate text across all records, and write a journal dedicated to bike maintenance using FRSBikeTraxx Crack (to remember the last time you took your bike to the shop or that you have to repair/buy a new part, for example). Generate and compare monthly and yearly reports Furthermore, if you continue to use FRSBikeTraxx for a long time and on a regular basis, you can instruct the tool to generate monthly or even yearly reports, compare the reports year to date, and view annual logs. There's also a menu with some bookmarks on cycling news, which can be immediately opened in your default web browser on click. However, you can make this list of bookmarks to remove, edit or add new sources. Getting weather info, password protection, and auto backups Additional settings can be used to re-arrange the columns of records to the finest detail (like changing the data type), specifying your location for acquiring weather data automatically, customizing the font and color scheme, configuring prints, locking the app with a password, and switching to fullscreen mode. As a precaution, data is autosaved so you don't worry about losing unsaved records in case of a power outage or other reason. If you decide to get the app, it's reasonably priced and can be easily downloaded by users on Android (4.0 and above) via Google

## **FRSBikeTraxx 2.1.0 Patch With Serial Key [Win/Mac] [2022-Latest]**

US\$1.99 - Bike Technician - Bike Maintenance Log 1.3.1 What's new in this version - Bug fixes. Overview Bike Technician is a feature-packed application for bicycle enthusiasts interested in keeping records about their cycling activities. The application is packed with options like logging and tracking routes, generating reports, maintaining a journal and other useful functions. Some of the most appreciated features of the application are: • Basic GPS tracking: you can save bicycle routes, find routes, compare routes and select favorites (plus much more). • Maintenance logs: record the date and time of a repair, select the part which needs to be changed and view the inventory list; the journal is a dedicated space for cyclists to write their maintenance notes. • Backup reports: create a separate copy of your records on your computer, modify them, and share them among multiple users. • Generate reports: you can create monthly, yearly or year to date reports. The application was built from the ground up to be simple but complete. Once you install the utility, you can use it right away without having to learn any programming language to input the data in the database. The application has a very clean user interface where you can view records and edit them by adding and removing routes, selecting a bicycle model, selecting a duration for tracking a specific route, selecting the number of entries you want to log, as well as how you want to share your records. You can write reviews to improve the application, such as highlighting the functionality you use most and pointing out any bugs. You can edit and sort your routes, share the records among multiple users and create presets for the favorite GPS tracks. With these presets, you can open or view the GPS data on a map. If you want to keep track of your cycling routes, Bike Technician may be the perfect choice for you. BikeRoutes - GPS Tracking App US\$1.99 - BikeRoutes Description: BikeRoutes is a GPS tracker app that helps you log, view and share your bicycles tracks. The app has been tested

---

with the HTC Wildfire & Motorola Droid. You can use the app from any Windows Mobile device for logging and tracking cycles, road, and mountain biking activities. With BikeRoutes you can identify and follow your bicycle rides, always in time and form the b7e8fdf5c8
